RPA PYTHON MODULES
TOP USE CASES IN AUTOMATION DEVELOPMENT

When developing your RPAs in Python, many use cases are familiar to most RPA developers. You can use Python modules that encapsulate solutions to those use cases instead of writing your own code.

NAME	USE CASE	MODULE
Captcha Plugin	Anti captcha services integration	https://pypi.org/project/botcity-captcha-plugin/
Hashicorp Vault	Secrets and encryption management	https://pypi.org/project/botcity-hashicorp-vault-plugin/
Documents	Read PDF files	https://pypi.org/project/botcity-documents/
AWS Secrets Manager	Secrets management	https://pypi.org/project/botcity-aws-secretsmanager-plugin/
AWS S3	Storage on Amazon Simple Storage Service (S3)	https://pypi.org/project/botcity-aws-s3-plugin/
Google Drive	Storage on Google Drive	https://pypi.org/project/botcity-googledrive-plugin/
E-mail	Send and read e-mails using a mailbox	https://pypi.org/project/botcity-email-plugin/
Google Gmail	Send and read e-mails using Gmail accounts	https://pypi.org/project/botcity-gmail-plugin/
Google Cloud Vision	OCR processing using Google Cloud Vision	https://pypi.org/project/botcity-cloudvision-plugin/
HTTP	Interact with HTTP endpoints	https://pypi.org/project/botcity-http-plugin/
Crawler	Crawl websites for extracting data	https://pypi.org/project/botcity-crawler-plugin/
AWS Textract	OCR Processing using Amazon Textract	https://pypi.org/project/botcity-aws-textract-plugin/
Files	Compress and decompress files and folders	https://pypi.org/project/botcity-files-plugin/
AWS Lambda	AWS Lambda functions	https://pypi.org/project/botcity-aws-lambda-plugin/
AWS SQS	Use AWS Simple Queue Service	https://pypi.org/project/botcity-aws-sqs-plugin/
Google Sheets	Manipulate Google Sheets files	https://pypi.org/project/botcity-googlesheets-plugin/
Excel Plugin	Basic Excel file processing	https://pypi.org/project/botcity-excel-plugin/
CSV Plugin	Basic CSV file processing	https://pypi.org/project/botcity-csv-plugin/
Twilio WhatsApp	Use Twilio for WhatsApp communication	https://pypi.org/project/botcity-twilio-whatsapp-plugin/
Twilio SMS	Use Twilio for SMS communication	https://pypi.org/project/botcity-twilio-sms-plugin/
WhatsApp	WhatsApp Communication	https://pypi.org/project/botcity-whatsapp-plugin/
Slack	Send messages, files on Slack	https://pypi.org/project/botcity-slack-plugin/
Discord	Send messages, files on Discord	https://pypi.org/project/botcity-discord-plugin/
FTP	File operations over File Transfer Protocol (FTP)	https://pypi.org/project/botcity-ftp-plugin/
Recorder	Create a video of your RPA running	https://pypi.org/project/botcity-recorder-plugin/
Google Calendar	Manipulate Google Calendar events	https://pypi.org/project/botcity-googlecalendar-plugin/
Telegram	Send messages, files on Telegram	https://pypi.org/project/botcity-telegram-plugin/
